(By Associated Press.)  
PHILADELPHIA, Oct. 10.—The Boston Nationals won the second game of the world's series by beating the Philadelphia Athletics one to nothing. It was a gruelling fight to the finish. Boston didn't put over a run until the ninth. A double by Deal, substituting for Smith at third, followed by his steal of third and Mann's single, brought the Boston's run. The Athletics threatened to tie in the ninth, having a man on first and second and only one out, but a double play by Maranville ended it. James' pitching was baffling. Both clubs fielded brilliantly. Maranville and Barry's playing being especially brilliant.

Boston rotters paraded the field while hands played the Boston battle song, "Tessie." Both clubs leave tonight for Boston.

### CALLS MAN LIAR IN FIERY DEBATE OVER SUFFRAGE

INNOCENT LOOKING AMENDMENT PROVOKES A SHARP OUTBREAK.  
(By Associated Press.)  
WASHINGTON, Oct. 10.—Personalities broke out in the house between Republican Leader Mann and Representative Heflin, of Alabama, and culminated in the Alabama man denouncing Mann as unworthy of his seat, and demanding the house take up the charge. Mann has offered a Philippine amendment to provide for woman suffrage. Mann referred to a recent suffrage speech by Heflin as an "insult to womanhood."

"I denounce the gentleman from Illinois as a liar," shouted Heflin.

### CARDINAL FERRARA CLAIMED BY DEATH

PAPAL SECRETARY OF STATE AND CANDIDATE FOR POPE DIES TODAY.  
(By International News Service.)  
ROME, Oct. 10.—Cardinal Dominio Ferrara, papal secretary of state, died at 1:30 this afternoon. He was stricken with appendicitis shortly after the conclave in which he was a leading candidate for the papacy and peritonitis developed. Today he suffered a relapse and sank into a comatose condition. Pope Benedict was notified and sent his final blessing. He was born in 1847, in Montefiascone, Italy.

### THE PUBLIC SCHOOLS

By a recent ruling of the school board the superintendent has been empowered to fix a limit upon new entries into the receiving grade of the school. October 16 has been set as the date, that being the end of the sixth week of school. Parents wishing to enter their children should do so by the coming week. Already a total of 78 children have entered grade one. Of this number 15 are in an overflow room, still leaving a total of 63 for one teacher to handle. With so large a number in one room the entire class is handicapped by the entering of children who are behind the rest. After this coming week only children who have already been in school in the first grade here or elsewhere may enter that class.

The report cards for the grades and high school were due to be issued this week, but will not be ready for a few days yet, the cardboard of which the printed forms are made having been delayed in transit on the railroad.

State Superintendent Bray visited the schools Wednesday and met the new teachers. He spoke briefly to the new high school and some of the grades.

### FRONT OF ALLIES MAINTAINED IN SPITE OF ATTACKS

GERMANS RENEW THEIR ASSAULTS ALL ALONG LINE WITH VIOLENCE.  
(By International News Service.)  
PARIS, Oct. 10.—The official statement is as follows: "The battle continues under satisfactory conditions. Our entire battle front has been maintained despite violent attacks by the enemy at several points. On our left wing, the region between Labasse, Armentiers and Cassel, 27 miles northwest of Lille and 18 miles from the coast on the English channel, an engagement between opposing cavalry has been of intricate nature because of the nature of the land formation. North of Oise our troops have gained some real advantages. At several points in their zone of action in the region of St. Mihiel we made a violent advance."

"In the Russian theater of war severe fighting continues on the frontier in East Prussia where the Russian troops had some partial successes. They have occupied city of Lyck. The siege of Przemysl continues under conditions favorable to the Russians."

### GALLANT LITTLE NATION IS SACRIFICED TO PROTECT FRANCE AND ENGLAND

(By International News Service.)  
ROZENDAAAL, Holland, Oct. 10.—Antwerp surrendered to the Germans at 2:30 Friday. While the flag of truce was hoisted on the cathedral at 9 a. m., negotiations continued for surrender six hours.

(By Associated Press.)  
THE HAGUE, Oct. 10.—It is said the Cathedral of Notre Dame was not damaged. The Germans delivered a furious attack Friday morning and the Belgians resisted with desperate fighting with heavy losses to both. On Thursday night the Zeppelin airship, direct firing of German heavy artillery, caused results most appalling. The artillery forced its way across the Netho and many artillermen were drowned. Fighting was indescribably sanguinary. The Belgians succeeded in destroying two and possibly more of the enemy's batteries of artillery.

The siege began ten days ago. Zeppelin bombs are believed to have killed scores, besides adding terror to the inhabitants. The German troops are said to consist of five corps. King Albert aided the defenders until the last, leaving only yesterday.

(By Associated Press.)  
LONDON, Oct. 10.—Antwerp is 180 miles from London and fear is expressed in England that with Antwerp as the German base, Zeppelin ships will be used to attack the English coast line or even London. Napoleon called Antwerp the "pistol pointing at the heart of England." It is estimated that 400,000 Germans are in Belgium.

(By International News Service.)  
LONDON, Oct. 10.—The Belgians' sacrifice upon the altar of war is complete. The city of Antwerp, the last jewel in the crown of the little kingdom, has been taken by the Germans. It suffered the fate of Liege and Namur. After reports of many hours that Antwerp had fallen, the war office admitted today that the city was evacuated yesterday. It is understood that some of the inner and outer forts are still holding out, but cannot resist long. The strongest forts were those first attacked by the German 16-inch guns. They fell and the fate of the weaker forts will be the same. The garrison of Antwerp, excluding troops that have been left in the

### GENE LOCKE AND CAL BROUGHER CHOPPED WOOD FOR TYBO SMELTER

Eugene Locke, the veteran rancher and live stock man of the Duckwater end of Nye county, was here this week attending the session of the county commissioners with the desire of convincing that body of the necessity for doing permanent improvement work on the roads of the eastern end of the county instead of the wretched patchwork which has proven such a costly experiment. Mr. Locke is one of the best posted old timers in the county and is favored with a retentive memory regarding dates that make him one of the most reliable historians.

The other night at the Mizpah hotel he and Cal Brougher had a long session which was brimful of enlightening incidents and thrilling with human interest stories. Cal now is a banker and a millionaire with interests paying dividends in three states. He is one of the chief property owners of Tonopah, president of the Tonopah Banking corporation, one of the owners of the Mizpah hotel, president of the Midway and Monarch Pittsburg Extension Mining companies, besides having land interests around Carson and down the peninsula and around Oakland. This is merely explanatory to the reminiscences conjured by Gene Locke and Cal Brougher getting together and relating stories of their experiences during the early days of the Tybo boom. Both men were partners in a wood chopping and charcoal burning deal and both men made good money at the operation and when they separated there was not a dollar's difference in their accounts.

The experiences carried the old boys back to the days of 1876 when both were engaged in "coal burning" at Tybo. They thought they were making good money when they could realize 22 cents a bushel for coal, which was at the rate of eight dollars a cord for wood. The mines prospered and the number of furnaces increased so there was a demand for all the coal that could be produced. The product of the mines was a lead silver ore that was shipped out by way of Eureka. While engaged in this business Gene kept an eye to windward and picked up some good land on Currant Creek, where he gradually began ranching with something more than the traditional branding iron as his stock in trade. He stayed on the creek for five years and in 1883 took up a ranch at Kaiser's Springs and put all his money into beef. Four years ago he sold his holdings at top figures and cashed in 800 head of fat steers and then decided to go to a balmy climate where he could enjoy himself for the remainder of his

days. He bought a home at Auburn, California, four years ago, but never felt as he did in the days when the fragrance of the sage tickled his nostrils. How he is coming back to God's country where he can see the sunlight more than once a week and where he can move around without snowshoes during the greater part of the winter.

Mr. and Mrs. Locke have two children, a boy and girl aged 19 and 17, who are now going to college.

WILL FIND A JAIL IN EARTH'S BOWELS  
MILITIA WILL NOT WASTE ANY MONEY IN BUILDING STOCKADES.  
BUTTE, Oct. 10.—Hundreds of feet down in one of the old-time abandoned mines of Butte the I. W. W. recruits who threaten to come to Butte will find their prison.

That is the plan devised by the authorities as one of the most expedient ways of handling the I. W. W. situation that is reported to be impending because of I. W. W. disturbances being ordered by their organization to head for the mining city.

No stockade for the retention of prisoners immediately on their arrival in Butte by the national guardsmen.

No imprisonment in any jail there to resume the experience of jail life well known to so many of them.

No "bull pen" proposition for them.

Instead, the plan which most appeals to the authorities is to have them lowered down the shaft of one of the abandoned properties in the vicinity of the Lexington mine, where they speedily would find that there could be no means of escape through the shaft which easily could be guarded.

forts remaining in Belgian hands, are reported to have joined the main force west of Antwerp. The hope that Antwerp can be retaken is voiced by Colonel Repington, military expert of the London Times.

(By International News Service.)  
BERLIN, via Amsterdam, Oct. 10.—A statement of the war office today says the flanking operations of the Germans in France have met with steady success and allies' left wing is in serious danger.

"Our offensive is increasing in strength," says the statement. "The enemy has suffered so tremendously in attempts to arrest our advance and outflank us that he has been compelled to withdraw from several points about Arras. Though we suffered heavily we were able to reinforce lines, whereas the French and British are unable to strengthen their forces to any extent. Successful termination of the siege of Antwerp releases large German forces. A decisive pass in the war in the west has been reached and the advantage is all ours. The situation in the east is unchanged."

(By International News Service.)  
BERLIN, Oct. 10.—Antwerp has fallen, says an official announcement. The State's Belgian garrison was led out of Antwerp by the commander. "The German troops have taken Antwerp," the message says. "Breaches were made in fortifications at several points and they had to be abandoned. The commander left with the garrison Friday. The city and most of the forts have been in possession of the Germans since Friday afternoon."

(By International News Service.)  
PARIS, Oct. 10.—The Germans are making heavy attacks north and northwest of Lille, but the situation is satisfactory for the allies, according to the official French statement at 3 this afternoon. The French gained an advantage north of the Oise and made progress about St. Mihiel in the east.

(By International News Service.)  
LONDON, Oct. 10.—A declaration of war on Germany by Portugal is expected momentarily in Berlin.

### RUSSIANS TAKING OFFENSIVE AGAIN IN EAST PRUSSIA

SIXTY MILES OF FIGHTING LINE THE SCENE OF CONSTANT FIGHTING.  
(By International News Service.)  
AT THE FRONT AT WIRBALLEN, Russian Poland, Oct. 10.—The Russians have finally decided to take the offensive. For three nights the Russians attacked the long front of 60 miles from Wilkowsky, north to Augustowo, to a point below Lyck, in East Prussia. All attacks were repulsed. Several villages have been burned.

### CITIZENS' LEAGUE GOING TO GET BUSY

Last night a Citizens' league was formed to see the law enforced in Tonopah and to see that the era of lawlessness which has been tolerated here by the officers is brought under control. It is not the intention to consult the district attorney at any stage of the game. He had the opportunity to enforce respect for the law and failed to do his duty in such an open manner that the town is now being overrun with desperate characters without any visible means of support. Every day sees the number of these people augmented. Every day their insults are being hurled in the faces of our townspeople. The time has arrived for action and action will follow.
